

## Simple to use - long lasting

1. Wash and dry your hands in accordance with local guidelines.
2. Apply enough HSP spray to ensuring good coverage.
3. Rub hands thoroughly and allow HSP to air dry.

Your hands and skin are now protected by microSURE HSP against a large range of harmful pathogens. Our revolutionary new formula is completely free from harmful chemicals, free from alcohol, free from fragrance and is also non-toxic. Plus it provides proven ongoing protection for 6 to 8 hours. To extend protection simply re apply as needed.
